

Terrace

The Terrace light pole is a contemporary column, tapered in style with a curved section facing upwards towards the sky and lighting an area in a grand fashion. The advantage of using the Terrace lighting poles is its ability to be personalised to any development by adding a logo or design, as you can see pictured. The Terrace light is available in both top and side entry luminaire fixture, whilst mounting options include in-ground mount or base plate for foundation bolts. Terrace light poles come in 4 standard colours and other colours are also available on request.
