

Rag-Bolt Cage

Offering support and strength to our solar lights is an important part of any lighting installation - which is why we're proud to offer our rag-bolt cage footing in conjunction with a range of solar light solutions. Designed with easy installation in mind, you can be confident that, once your rag bolt footing is in place, it shall remain upright and secure in even the harshest conditions.

The rag-bolt cage is designed for base plate mounted poles. This footing adds extra support to light poles.

- ✓ Used for base plate mount poles
- ✓ Easy and secure installation
- ✓ Rag-bolts are welded into place with H-template for precise fitting
- ✓ Adds stabilisation with underground footing
