

100W Ultra Hinged Pole

The 100W Ultra Solar Light with the Hinged Light Pole provides a powerful light spread and huge battery capacity; offering brighter and safer spaces wherever it is deployed.

The 100W Ultra with a 6m galvanised steel hinged pole is a budget friendly portable solar lighting solution. Its innovative design is as durable as it is versatile, and the innovative hinged base provides an easy installation process despite its height. The concrete base makes this solar lighting solution extremely sturdy. It is wind rated for Region A with the single concrete base option, and Regions B and C with the double concrete base.

- ✓ Fully portable
- ✓ 100W all-in-one compact unit
- ✓ Mono-crystalline solar panel
- ✓ Hinged galvanised steel 6m light pole
- ✓ Unique base with hinge design
- ✓ Innovative design allows for easy deployment
- ✓ Built in lithium-ion battery storage
- ✓ Two concrete base options to suit different wind regions
- ✓ Built-in galvanised fork ports in base
- ✓ Heavy duty lifting lugs
- ✓ Strengthened with reo-bars running throughout base
- ✓ No diesel required!

Hinged Pole	Single Concrete Block Wind Region A	Double Concrete Block Wind Region B and C
Overall Height	5.8m	6.1m
Weight	750kg	1700kg
