

### Description

The OmniStop Super Duty security bollard is designed to control errant vehicles weighing up to 2270kgs. This bollard is crash tested and can be relied upon to reduce the amount of damage that occurs when an errant vehicle attempts to enter a pedestrian dense area. It offers an innovative solution to protecting the public from terrorists and errant drivers, without interfering with pedestrian activity.

### Features

- Fully crash tested with a 2270kg vehicle at 50km/h
- Protects pedestrians, outdoor diners and assets
- Reduces the risk of injury to the vehicle's occupants
- Allows pedestrian flow
- Ease of installation and replacement post impact
- Available in a range of colours, white, yellow, black, grey, stainless steel or customised to suit your project

Crash  
Tested
