

Description

Perfect for use by councils, the Surface Mount Lockable Bollard can be easily removed and replaced by one person to secure the area again quickly, with virtually no disruption to works, public or traffic. Custom delineation and colours available for bulk quantities. They are secured using a base plate and heavy-duty anchors (bolts) with a padlock to secure the bollard in place. The locking mechanism ensures that the bollard can only be removed by authorized personnel, greatly enhancing security
