

Description

Saferoads Surface Mount Bollard is a sturdy safety post designed to be bolted directly onto an existing hard surface, such as concrete or asphalt. They are secured using a base plate and heavy-duty anchors (bolts) fixed into pre-drilled holes. They are primarily used for traffic control, pedestrian safety, and asset protection in areas where deep excavation is undesirable.

Features

- Available with rain cap and flat top options
- Galvanised Steel - Grade 250
- Powdercoated finish in safety yellow
- Custom colours available

**PLEASE NOTE**
This is not a crash tested bollard

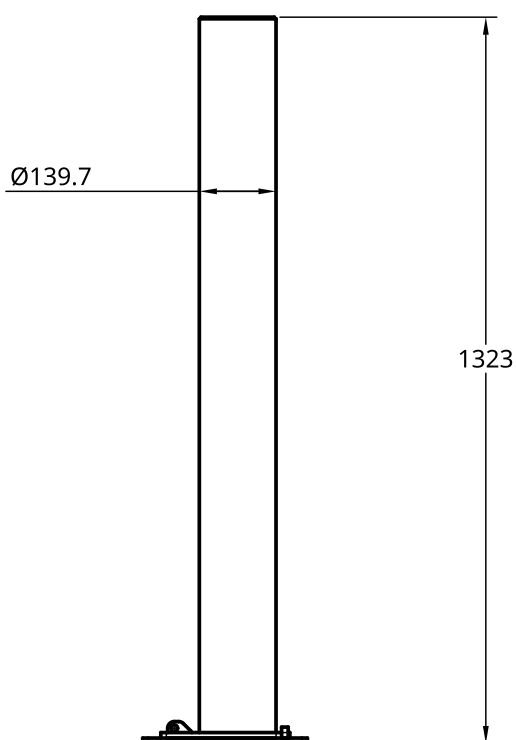

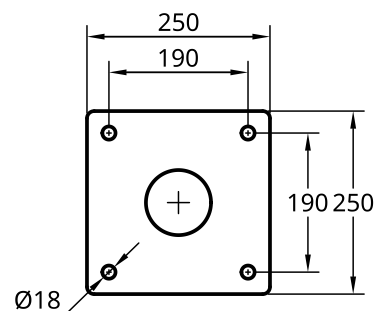

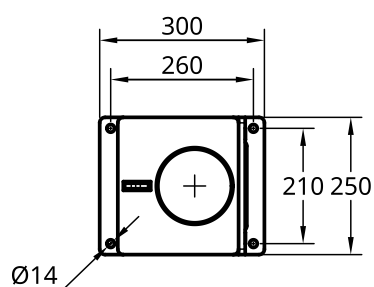

- Surface Mounted
- Permanent
- 1 Year Warranty
