Practical products,  
proven performance  
and safer communities

## Security Bollards | Protect People, Property and Public Spaces

From pedestrian precincts and outdoor dining areas to council facilities and public spaces, security bollards provide a practical way to manage vehicle access and protect vulnerable areas.

### Crash Rated Permanent Bollards

Energy Absorbing Bollards for Inground Installation

#### OmniStop Super Duty Bollard

- Fully crash tested with a 2,270kg vehicle at 50km/h
- Designed to reduce impact risk
- Ease of installation and post-impact replacement

#### OmniStop Ultra Bollard

- Fully crash tested with a 1600kg vehicle at 60km/h
- Approved for use by Department of Transport (Vic Roads) and Transport for NSW up to 50km
- Ease of installation and post-impact replacement

### Permanent Bollard

#### Surface Mount Bollard

Strong Visual Deterrent - No Extensive Excavation

- Available with rain cap and flat top options
- Galvanised Steel - Grade 250
- Powdercoated finish in safety yellow
- Custom colours available
- **1 year warranty**

### Removable Bollards

#### Surface Mount Lockable Bollard

Flexible Access Control

- Easy 10 minute install
- Can be padlocked for extra security
- Powdercoated finish in safety yellow
- No destructive core drilling into paths or walkways
- **1 year warranty**

#### Inground Lockable Bollard

Heavy Duty

- Available with rain cap and flat top options
- Galvanised Steel - Grade 250
- Powdercoated finish in safety yellow
- Custom colours available
- **1 year warranty**

Security Licence No  
000110687

**Bollards are Ideal for** Council Facilities • Pedestrian Zones • Town Centres • Outdoor Dining • Parks & Public Spaces

# Solar Lighting | Flexible Solar Lighting Solution

Solar lighting is a popular choice for environmentally conscious communities where safety, security and reducing carbon emissions is a critical part of the local government strategy. With permanent and portable options available, Saferoads solar lighting can support safer roads, pathways, work areas and public spaces.

## Blade Solar Light

### Powerful Solar Lighting Solution

- Premium grade commercial solar lighting
- Newly designed hot dip galvanised (SHS) telescopic pole
- Optional remote programmable smart lighting
- Massive 72Ah battery capacity (up to 12.8V)
- 3 base options rated to suit wind regions A, B & C
- **2 year product warranty and 3 year battery warranty**

## Pole Options

### Permanent Galvanised Pole

- 8m galvanised steel light pole for commercial applications

### Portable Telescopic Pole

- Newly designed hot dip galvanised (SHS) telescopic pole
- Forklift into place then winch from lowered to raised position in less than two minutes

### Portable Hinged Pole

- Hinged galvanised steel 6m light pole for quick and easy deployment

## Base Options

### Rotationally Molded Plastic Base | Wind Regions A & B

- Filled with a concrete mix for stability
- Built in fork ports
- Base colour can be customised for your business
- Has an indented space for branding

### Single Concrete Block | Wind Regions A

### Double Concrete Block | Wind Regions B & C

- Built-in galvanised fork ports
- Heavy duty lifting lugs
- Built in ferrules for base plate mounting
- Strengthened with reo-bars running throughout

# Temporary Barriers | World Leading Innovation

Saferoads is a world leading innovator in developing advanced road safety barrier systems. Our temporary barriers provide practical separation and protection for roadworks, pedestrian areas and temporary traffic environments.

## T-Lok Barrier

### Crash Tested to MASH TL-3

- ASBAP approval to 100km/h
- Low deflection and safe re-direction
- Available in 3.66m and 5.49m lengths
- Multiple end treatments can be used
- Steel wedge available to accommodate tight radius projects

## Blockout Barrier

### Water Filled Barrier System

- For non-tested applications
- Lightweight and easy to transport
- Simple manual install
- Each join allows for over 240 degree angling
- Interlocking tabs

## Rubber Guard Barrier

### Durable Recycled Rubber Barrier

- For non-tested applications
- Manufactured using 85% recycled rubber crumb
- Rubber increases the durability of the barrier increasing its lifespan
- Efficient deployment with forklift

**Barriers are Ideal for** Roadworks • Worksites • Pedestrian Separation • Traffic Management • Events

## Guide Posts | Durable Delineation for Safer Roads

Guide posts provide essential roadside delineation, helping motorists identify road alignment and changing conditions. Saferoads offers durable guide post solutions designed to withstand repeated impacts while providing reliable visibility and easy installation.

### SupaSteel Guide Post

#### Re-straighten After Vehicle Impacts

- Semi-flexible steel construction
- Can be re-straightened after multiple vehicle impacts
- Class 1A reflective delineator
- Sharpest point of any steel guide post
- Easy installation into a range of ground conditions

### SnapLoc Guide Post

#### Fast and Easy Install, Superior Durability

- Flexible urethane hinge
- Rebounds and self-corrects after impact
- Designed to withstand multiple impacts
- Multiple mounting options, easy install with Jackhammer
- Available in two piece with multiple mount options or star picket one piece socket

**5 Year Warranty Across the Guide Post Range**

**Guide Posts are Ideal for** Local Roads • Rural Roads • Curves • Bridges • Roadside Delineation

## Electronic Signs | Communicate Clearly, Respond Quickly

Variable Message Signs provide a flexible way to communicate important information to motorists and the community. From roadworks and changed traffic conditions to events and public messaging, VMS technology helps deliver information where it matters.

### Zone VMS Classic

#### Communicate Promotional or Traffic Control Messages

- Australian designed and built C-Size VMS
- Amber or five-colour display options
- 3 x 200W Solar Panels that tilt and rotate
- 4 x 12V 200AH batteries with on board battery charger
- Fully sealed tool boxes with gas struts x 4
- Checker plate floor and spare wheel
- Available as a hybrid model with no tilt and rotate on the panel

### Zone VMS Essential

#### Advertise your Business or Event with Ease

- Australian designed and built C-Size VMS
- Amber or five-colour display options
- 2 x 200W solar panels
- 12V 200AH batteries (Amber x 2, Colour x 3)
- Fully sealed tool boxes x 2

VMS Online  
Management  
Platform

- 100% Australian developed, owned and hosted
- 24/7 Australian support
- On board message manager
- Easy to use internet platform
- Accessible from any browse/device

**VMS are Ideal for** Roadworks • Traffic Changes • Events • Community Messaging • Emergency Situations

# Traffic Calming | Practical Solutions for Safer Streets

Traffic calming products help reduce speed, improve driver awareness and manage the movement of vehicles in changing and higher-risk environments

## Separation Kerb

### Redirect or Separate Traffic with Ease

- Designed to delineate, re-direct or separate traffic
- Made with durable recycled rubber and EPDM rubber
- Available in highly visible yellow or black with recessed reflective stickers
- Contours to the road surface

## Kangou Signs

### Impact Resistant Signage

- 360 degree impact resistant
- Withstands multiple impacts - extensively tested with a 40 tonne truck including wheel over impacts
- Integrated sign face, with replaceable decals
- Durable polyurethane hinge

## Rubber Kerbing

### Quick to Install, Durable and Cost Effective

- Absorbs vehicle impacts
- Made with white EPDM rubber
- Does not crack, chip or breakaway, reducing constant maintenance
- Resistant to greying from road grime

## Rubber Speed Cushions

### Reduce Speed, Accidents and Noise

- Engages the driver to reduce speed
- Highly flexible modular design
- Manufactured with durable recycled rubber
- Ability to remove and relocate if required

## Durable Rubber Solutions for Managing Parking Areas, Vehicle Movement and Bike Lanes

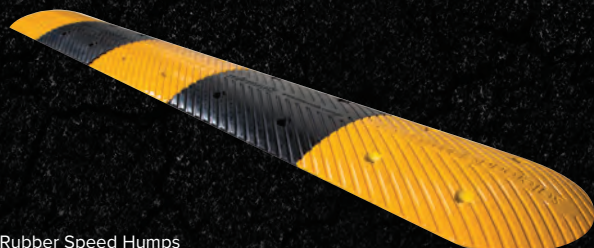

Rumble Bars

Caterpillar Safe Cycle

Rubber Wheel Stop

Rubber Speed Humps

Roll Out Speed Hump
